# THANK YOU FOR MAKING A DIFFERENCE

*Our mission is to create a safe harbor for our children, emphasizing values like tolerance, open-mindedness, knowledge-seeking, problem-solving, and kindness.*

Around the globe and in Antigua, students live in a world with daily reminders of social injustice, displaced refugees, human trafficking, climate change threats, and nations at war. Among the many gifts imparted to our community of learners are lessons of tolerance, open-mindedness, seeking knowledge, problem solving, and kindness.

At Island Academy, our students actively engage in discussions and debates about global issues. Students recently benefitted from hearing both Palestinian and Israeli perspectives deepening their understanding of Middle East history and the current conflict between Hamas and Israel This approach fosters information gathering, critical thinking, robust debate, and humanitarian values. We are confident that this educational foundation will prepare our students to be future global caretakers.

We've been sustained by your support for 22 years, and as stewards of your contributions, we're committed to making a meaningful difference in our students' lives, and in promoting a more peaceful and just world. In the words of Franklin D. Roosevelt, "The test of our progress is not whether we add more to the abundance of those who have much, it is whether we provide enough for those who have too little." Thank you for your past and continuing support.

**Bernadette Sherman**

Founder &  
Board Chair

# THANK YOU FOR MAKING A DIFFERENCE

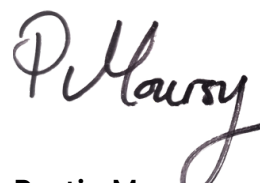

It is with much love and pleasure that I extend our deepest gratitude once again to you our generous donors. Our community has continued to flourish over the 2022-23 academic year with demand for student places continuing to exceed our capacity. This year, we welcomed 20 students into our International Baccalaureate post-16 class. This diverse cohort is our largest IB cohort in our 22 year history, and we expect this trend to continue.

Outside of the classroom there has also been much to celebrate. Our students have represented the school and Antigua at the 2023 Robotics conference in Geneva, participated in the International Chess Olympiad that was hosted right here on our campus and our student athletes represented Antigua in various sports.

In November our Board of Directors hosted a gala fundraising evening at Blue Waters hotel. The event was a sell-out success and we were humbled by our community's support. Also, we worked with our Friends and Family of Island Academy organization (FFIA) and an auto dealership to raffle off a brand-new car which was televised.

It has also been a big year for our very own Mrs. Sherman who was honored with the Commander of the Nation award for her services to education. We are exceptionally proud of her.

*None of this success would be possible without your continued belief, support, and love. Our donors are the lifeblood of our school and together we are improving the lives of young people across the country. We are forever appreciative.*

**Portia Moursy**  
Executive Director

# HIGHLIGHTS

*Your support continues to have an impact on the various facets of many achievements of our students through the various ways you give.*

## Double Volleyball Championship Winners

It was a clean sweep for both our Girls and Boys Teams at the National Inter-school Volleyball League earlier this year. Led by teacher and coach Mr. Randy, team members comprising students from Grades 7 through 13 in both teams demonstrated their abilities and sheer determination on the court - ultimately culminating in impressive, well-fought and well-deserved victories.

### Island Academy Claims The Double In School Volleyball

Island Academy won the male and female titles on Monday

By Carlana Knight

The celebrations were in full swing for Island Academy on Monday afternoon as they claimed double championships in both the male and female divisions of this year's inter-school Volleyball League.

Island Academy's female team started the celebrations first, defeating Antigua Girls' High School (AGHS) 2-1 in sets at the YMCA Sports Complex.

The former champions AGHS drew first blood taking the first set 15-13, but with a plethora of unforced turnovers, the all-girls school quickly found themselves in deep water as they lost the second set 11-15.

It was a seesaw battle in the third and deciding set but once again turnovers would plague AGHS, giving Island Academy the momentum to steal the set and virtually the

The celebrations were ongoing at YMCA after both teams won the finals

championship trophy.

Captain of the winning team Jahzara Donovan expressed her excitement over their win.

"It's my first year playing volleyball and I am very proud of my team. We did our best and went undefeated and I am just so proud of them. My heart is beating so fast. I am so happy for them. We are winning next year too; Undefeated," Donovan proclaimed.

OCS claimed the first set 25-17 and quite seemingly

looked like they were going to take the second.

But Island Academy would not be outdone and rallied to win the second, 25-15.

Both teams brought their A-game in the third and final set exchanging points throughout, but Island Academy would surge ahead and never looked back — scoring three consecutive points to win the title.

"I think we did really well going into the second and third sets. Our mentality definitely changed and our goal was to win the championship and here we are now," co-captain Noah Perry said.

"Last year, we only won two games and that's why it's a big deal; it's a big improvement so we are just happy to win. You can expect more wins from us next year," Jaden Challenger, the other captain added.

## IA students make national squad for OECS Games

Five current and two graduated IA students were part of the history-making Antigua and Barbuda National Swimming team that won the twin-island's first-ever Organization of Eastern Caribbean States (OECS) Swimming Championships in November 2022. Students collectively earned a total of 12 medals including 8 gold medals with our youngest student swimmer Zane Williams (7 years old at the time) dominating his category and earning the trophy for highest points!

## Career Day, Bigger and Better

---

2023's Career Day was one for the books! It was a popular year for front-line services as many primary and secondary students came decked out as policemen and women, fire officers, first aid responders and doctors. Secondary students virtually met with accomplished professionals from all over the globe. They then had a full afternoon of interaction with and learning from professionals (IA alumni, parents, friends and well-wishers) from various fields including architecture, sailing, aviation, dentistry, medicine and veterinary medicine, law and law enforcement, engineering, photography, and environment conservation.

## IA's School Play Returns

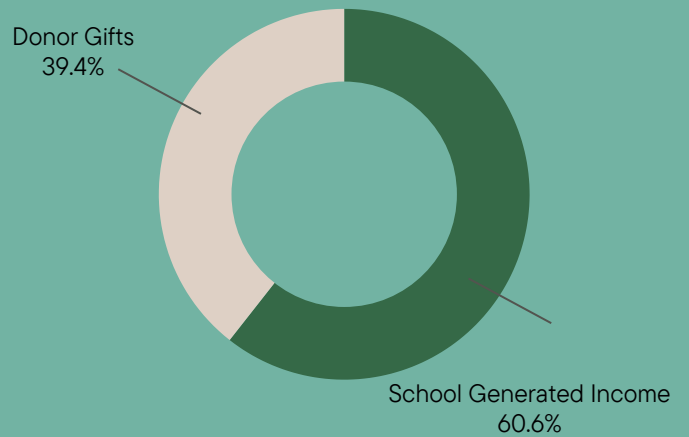

---

After a two year hiatus owing to the Covid-19 pandemic, we held our first play and one of our school's most highly anticipated events across the entire island. This play, specially written by our Music and Drama teacher, Ms. Beldman, was warmly received by all in attendance. Break out star Alijah Richards captivated audiences with his excellent comedic timing in his role portrayal and our lead actresses Sienna Harney-Barnes and Gabrielle Joseph demonstrated a range of performance talents.

# FINANCIAL REPORT

*Through your generous donations, we continued the vital work of providing life-changing opportunities to many students. Your support has made a meaningful impact on various facets of student life and achievement. We appreciate the many ways in which you contribute. Thanks to your giving, donor funding contributed almost 40% of total income for the 2022-2023 financial year.*

# OUR STORIES

*Our students are our shining stars and their success is our own. The following stories are of two students who have graduated from IA. Through them, we hope you see the impact of your commitment to our mission on the lives and dreams of young people of Antigua and Barbuda.*

## IA Pastry Queen

---

Jahkaydah Isaac, a 2015 graduate of the International Baccalaureate (IB) programme returned to the IA campus for the first time since pre Covid-19 and reflected on her time spent here. She contends that in spite of the heavy workload and intellectual challenge of the IB programme, it was a rewarding 2-year experience in many ways.

*“Thanks to the programme and doing courses like anthropology and global politics, I became more open-minded. I got so much exposure to the world outside of the Caribbean. It was also because of IB English and thanks to Ms. DiCocco that I discovered a love for books and thanks to Ms. Green that I decided to continue studying Anthropology.”*

However, what stood out most during her time here was IA's diversity and its welcoming and inclusive environment that fostered openness and encouraged

students to think of themselves as global citizens who can make a positive impact.

Jahkaydah matriculated Rollins College in Florida and excelled, earning a Bachelor of International Business summa cum laude. Since then she earned a diploma from Cordon Bleu London, launched her own business, the Flaky Crust, is a chef consultant and most recently won 1st runner up in the annual Antigua Queen of Carnival Show - a major local event for bright and ambitious young women. She also serves on a school board, volunteers with marine conservation, and is a member of Junior Chamber International (JCI) Antigua. She hopes to increase her involvement in community service, especially in the realm of youth and education, her own way of paying forward the opportunity she had to receive an exceptional education.

*“I am so grateful that I got the opportunity to come to IA to complete the IB programme. My experience here and the great teachers I had made such a profound impact on me that it all continues to influence my current ambitions in one way or the other.”*

## Reaching for the Stars

---

In 2021, Caribbean Secondary Education Examinations were delayed, but by that time, Anastatia Mayers, a then Grade 11 student at IA had already applied to and was offered a spot in a foundation programme at the University of Aberdeen after doing some research with her school's college counselor. Had Anastatia ever been to Scotland before? No. But she was brave and bold, daring to reach for the stars. She would go on to begin her undergraduate programme at Aberdeen, and win a trip of a lifetime, literally out of this world, as Virgin Galactic Astronaut 013.

Anastatia's journey from a young girl from the shores of Antigua to outer space captured the imagination of the world. When asked about the emotional significance of visiting her alma mater where she spent most of her formative years, Anastatia's reply is evocative and touching, describing her return as akin to reliving her childhood, reminiscing about lunchtimes spent with friends and the

enduring bonds she formed and the many lessons she learnt.

She shares her thoughts on her transformative experience of self-discovery from her time at IA to now:

*"Comparing my time at IA and my experiences since then is a journey through self-discovery. During my teenage years, I grappled with self-doubt, unsure about my path and purpose. Looking back, I've come to realize that my teachers at IA were right all along. The key to achieving our goals is unwavering self-belief. It's about really taking advantage of opportunities and also giving ourselves the opportunity to grow and shine."*

Her words serve as a powerful reminder of the role educational institutions plays in nurturing self-confidence and shaping the futures of their students.

Anastatia remains grounded despite her newly-found fame, which includes labels such as "first Antiguan astronaut," "youngest person to visit space," "first space tourist from Antigua". She also has a Wikipedia page. Anastatia largely credits her mother's unwavering and unrelenting support for her success.

Anastatia's educational foundation at IA which promotes IB attributes such as inquiry, risk-taking and a search of knowledge is evident in her wide-ranging academic journey. She has explored interests in medicine, a program in philosophy and physics and hopes to pursue astrobiology in the future.

She visited with students at IA and offered the advice to find joy in learning, believe in your abilities, put effort into chasing your dreams, and to be grateful for the many opportunities that come with being a member of the IA community.

*"I am filled with gratitude for all the support I've received, the lessons I've learned. My experiences, both here at IA and in the vastness of space, have shaped me into the person I am today, and I am excited to continue exploring new horizons, both in academia and beyond."*

According to Anastatia, her journey is a testament to the power of education, self-belief, and the unwavering support of an entire community, and some luck.

We celebrate Anastatia's accomplishments to-date, and honour the individuals and community supporters who contributed along the way to make her dreams become reality.

*"The future belongs to those who believe in the beauty of their dreams."  
Eleanor Roosevelt*

# GIVING TO ISLAND ACADEMY

Island Academy is a registered 501(c)(3) tax exempt organization recognized by the US Internal Revenue Service. It is a registered charity in Canada.

## DONATE

To donate by post, donors should send cheques made payable to the following:

Island Academy International School  
Oliver's Estate, Buckley's Mn. Rd  
Buckleys, St. John's  
Antigua, W.I.

Donations can also be made on the school website via credit card using the following link:

<https://www.islandacademy.com/product/donate/>

Your giving enables us to develop a generation of young people who will make a brighter and better Antigua and Barbuda!

For further information on making a donation kindly contact the following:

Bernadette Sherman at
