

Bus Policy

Students are expected to conduct themselves on the buses like they would in school.

- Students must respect the driver and conductor at all times. Students should greet them when they board the bus, and thank them when they get off.
- Students must not eat on the bus. Students are permitted to drink water on the buses.
- Students must not use any inappropriate language on the buses.
- Students must not shout or raise their voices on the buses. They are permitted to talk quietly to the person next to them.
- Students must not move out of their seats whilst on the buses. They should sit in their seats and face the front at all times.
- Students are permitted to use devices on the bus, but they must have headphones in if they wish to listen to music or watch a video.
- Students must only watch school appropriate content whilst on the buses. We have lots of young students on our buses so it must be appropriate for all who could see.
